

Enlightening, Inspiring and Connecting Leaders

## Program Offerings

### Signature Program

The Leadership Arlington Signature Program is a ten-month, tuition-based program that provides a forum for the business, nonprofit and public sectors to discuss issues and opportunities facing Arlington, while enhancing personal and professional leadership skills. Through seminars, study groups, skill building, and interaction with community decision-makers, Leadership Arlington develops leaders with vision and commitment for our community.

### Young Professionals Program

Leadership Arlington's Young Professionals program invests in the future of the community's leadership by training emerging leaders in the key issues and skills that will ensure success. The program focuses on philanthropy, civic engagement and professional skill development over the course of four months. The Young Professionals program is a dynamic and innovative opportunity to reach to our community's growing young professional population.

### Youth Program

The Youth Program is designed to enhance leadership skills and awareness of the need for philanthropy, community service and civic participation in young people. For two weeks, the youth program meets at business, non-profit, and government locations throughout Arlington County to expose the students to diverse organizations and meet leaders from our community. Training is hands-on, experiential learning. Daily sessions focus on professionalism, culture competency and commitment, mentoring, facilitation, and philanthropy.

### Executive Forum

The Leadership Arlington Executive Forums provide a confidential learning environment for CEOs, business owners, and executives to grow as leaders, seek counsel from their peers on business challenges, and receive support in achieving their goals and designated outcomes. Composed of members from non-competitive industries from a variety of community sectors, forum partners act as a confidential unofficial board of advisors who bring insights and combined support of experiences to the table. Real business and organization issues provide the platform for practicing new behaviors.

### Leadership Institute of Northern Virginia

In response to the need for capacity building programs, the Leadership Institute of Northern Virginia was launched as a premier center of learning and development for nonprofits and their boards. To meet a growing demand for these programs, the Leadership Institute of Northern Virginia has expanded to include the following three programs: ON BOARD! Professional Development Trainings are day-long seminars focused on the basic roles, responsibilities and expectations of nonprofit board members. Black Belt for Nonprofit Workshops offer a "deeper dive" into specific issues and skills necessary to maximize board capacity over the course of three sessions. Customized trainings pair skilled facilitators with the staff and/or board members to create individualized sessions for addressing the needs and challenges unique to that organization.

### Speaker Series

Leadership Arlington offers the community six workshops each year focusing on issues and topics facing the Arlington community and surrounding area. The fall and spring series consist of two seminars and one skills workshop.
